Attorney's Docket No.: 08830-002003 / E-064-92/2

REMARKSStatus of the Claims*Pending claims*

Claims 1 to 21 as filed are pending.

The Restriction Requirement

The Patent Office has alleged that the pending claims of the application are directed to two separate and distinct inventions under 35 U.S.C. §121:

- I. Claims 1-12 and 19-21, drawn to a method of gene expression using jet injection, classified in class 435, subclass 459.
- II. Claims 13-18, drawn to a device for jet injection, classified in class 435, subclass 285.3.

The Election, with traverse

In response to the Restriction Requirement, Applicants elect Group I, claims 1-12 and 19-21, drawn to a method of gene expression using jet injection, with traverse.

*Reasons to reconsider and withdraw restriction requirement*

Applicants respectfully request the Patent Office to reconsider and to withdraw the restriction requirement for the following reasons.

The instant invention is directed to novel methods of gene expression using jet injection and novel devices for jet injection. Applicants respectfully aver that after a search directed to method of gene expression using jet injection it would not be an undue burden for the Patent Office to also complete a search for novel devices for jet injection.

Applicant believes that no additional fee is required for submission of this Response. However, if an additional fee is required, the Commissioner is authorized to deduct such fee from the undersigned's Deposit Account No. 06-1050. Please credit any overpayment to the above-noted Deposit Account.
